Re: Request for Additional Time to Submit a Revised Sampling and Analysis Work Plan;
Administrative Order on Consent for Nu-West Industries, Inc.; Idaho Facility, Docket
No. RCRA-10-2009-0186

Dear Mr. Cagle:

During our conference call yesterday discussing technical details in the Revised Sampling and Analysis Work Plan ("Work Plan"), you requested an additional five (5) days time to submit a revised Work Plan to EPA to allow for reprinting of the document.

Our records indicate that Agrium Nu-West Industries Inc. ("Nu-West") received the Agency's comments by letter on June 11, 2010. The letter required that Nu-West submit a revised Work Plan within fourteen (14) calendar days of receipt that responds to the comments received and corrects all deficiencies identified. Your request for the additional time is approved. The new deadline for Nu-West to submit a revised Work Plan to the Agency is therefore July 2, 2010. In order to facilitate a prompt review of the revised Work Plan, please provide a red-line version of the document that shows all changes made to the May 6, 2010 version.

The Agency remains available to discuss technical matters as you work towards meeting this deadline. Thank you.

Sincerely,

Peter Magolske
Office of Compliance and Enforcement
